**GhislaineViñas x imagine tile**

— Ghislaine Viñas —  
designer + founder Ghislaine Viñas

“My love of everything tropical stems from growing up in South Africa. On a return visit, this pattern grew from a collaboration between me and my business and life partner, Jaime Viñas to create this wildly fabulous Jungle design. We are excited to share this collection that will bring a sense of paradise to any space and can be installed anywhere you can imagine tile.”

*Jungle* by Ghislaine Viñas, for imagine tile, is an exclusive design in durable porcelain floor and wall tile. The Jungle tile collection features two (2) – 12" x 24" tiles with Ghislaine's exclusive tropical print specifically designed to repeat for a large-scale continuous pattern. Commercially rated for high traffic, resistant to strong chemicals, free of VOC's, unaffected by UV light, scratch resistant and low maintenance, these tiles are extremely durable and eco-friendly too! Two colorways are available in-stock, Emerald in lush shades of green and Concrete in delicate greys. Additional colorways are available as special order.

Ghislaine Viñas is an award-winning, internationally recognized, Elle Decor A-List designer based in New York City. Originally from the Netherlands and raised in South Africa, she is known for her interior design, product design, and creative direction. Guided by her instinctive intrigue for dramatic compositions and playful color contrasts, Ghislaine has produced her exuberant designs within the realms of residential, hospitality, and commercial interiors. She has led multiple partnerships with top home furnishings companies on extensive collections of custom pieces, bringing to life continued explorations of the studio's appetite for out-of-bounds color play, formal idiosyncrasy, and boisterous scale.
